

## **TECHNICAL DATA SHEET**

### **NPP-505M**

Primary Form of Acrylic Polymer

**NPP-505M** is a clear rubber paste for textile screen printing, octopus machine, auto machine, disc machine etc, excellent soft hand feeling, washing fastness, meets ISO6330, OEKO-TEX GOTS certificate requirements.

#### **Basic Properties:**

Appearance	Clear paste
pH Value	7-9
Solubility:	Soluble in water

#### **Application process:**

- **For light color fabric:** print directly or mix clear paste 95% +white paste 5%.
- **For dark color fabric:** mix clear 80~90% + white 20~10%.
- **Coloring:** Mix with PRC series or W series, adding <8%
- **Fixer:** Adding Fixer (2%) to improve the fastness.
- **Curing:** 150°C, 3~4 mins

#### **Packing:**

20, 30kg PE drum.

#### **Storage:**

Store air-tight in ventilated area under 35°C, 12 months.
