

TECHNICAL DATA SHEET

W-9200HC

W-9200HC is environmentally friendly product. It has superfine particle size, intense fluorescence and good dispersibility. It is without formaldehyde, heavy metals, APEO and any of the 23 aromatic amines prohibited, enabling the compliance with EU environmental requirements.

Basic Properties:

Appearance	Fluorescent Red Liquid
pH Value	4-6
Solubility:	Soluble in Water

TEST METHOD OF FASTNESS PROPERTIES:

Color Fastness to Wash: ISO 105 C04

Color Fastness Light: ISO B02

Color Fastness Rubbing: ISO X12

STORAGE & STABILITY:

6 months after production date when kept in the closed original packaging in a dry place at ambient temperatures. Dispersion should be protected from freezing.

N.B - All the fastness test is done for 10% shade for exhaust dyeing and 5% for printing.
